SUMMARY

DevOps Engineer experienced in managing 500+ AWS resources using Terraform and designing reliable CI/CD pipelines. Background in software engineering and machine learning enables effective collaboration with platform, backend, and data teams to deliver reliable production systems.

EXPERIENCE

Junior DevOps Engineer — ESGpedia | Jan 2025 – Feb 2026

- Architected and developed modular, scalable Terraform scripts from scratch to manage 500+ AWS resources, enforcing least-privilege IAM and secure infrastructure design.
- Reduced deployment time by ~30% via optimized Jenkins pipeline scheduling and achieved a ~50% cost reduction in test environment by automating resource lifecycles.
- Streamlined model delivery using MLflow on SageMaker for experiment tracking and DVC for data management.
- Developed a Terraform-provisioned ChatOps application for Microsoft Teams on Azure to improve operational efficiency.

Senior Software Engineer — CyweeMotion Group | Jan 2024 – Jan 2025

- Co-led a 10+ person solution, contributing to code reviews, technical guidance, and coordination; collaborated on hiring and mentorship.
- Designed a comprehensive GitLab CI pipeline with automated quality gates—including build, testing, accuracy, and hardware resource validation—ensuring reliable releases.

Software Engineer — CyweeMotion Group | Jul 2021 – Dec 2023

- Developed human activity recognition models achieving 90–95% accuracy across various MCUs, successfully deployed to millions of smartwatch users.
- Prototyped hand-gesture recognition models that outperformed competitor solutions in resource-constrained embedded environments.

Research Assistant — Academia Sinica | Sep 2019 – Jul 2021

- Co-developed the Phantom SDK for Python with Vision Research Inc.
- Built a fully automated microscope system using deep learning for biological experiments.

EDUCATION

National Cheng Kung University — MS, Physics | 2016 - 2018

GPA: 4.11 / 4.3 | The Phi Tau Phi Scholastic Honor Society (Top 3%).

LICENSES & CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- AWS Certified Developer – Associate
- AWS Certified SysOps Administrator – Associate
